## Chautauqua June 4-5-6-7

Chautauqua is coming again. This year Champion will have four days, June 4, 5, 6, and 7. The advance advertising would indicate a better program than has yet been offered here. Lecturers, musicians and dramatic talent present a brilliant array that could not fail to impress the most exacting. As usual there will be an afternoon and evening performance every day.

### OBITUARY

David Franklin Scott, son of Mr. and Mrs. David W. Scott of Champion, born August 11th, 1919, died 4 a.m., Sunday May 12th, 1929.

Frankie left home shortly before six on Saturday evening to bring the cows. Instead of taking his own old horse he took Neville's saddle pony. He got off to open and close a gate about half a mile north of home and it is thought that in getting on he slipped and fell and was dragged by the bridle lines by the hands round and round and when his grip loosened he was thrown under the fence and struck the post with his head. Shortly afterwards he was picked up by neighbors passing in a truck and conveyed home. A doctor was summoned immediately from Vulcan. He lingered until 4 a.m. Sunday but never regained consciousness.

The funeral service was conducted by Rev. Hunt in the United Church on Monday afternoon and the remains were interred in Champion cemetery. The pall bearers were his school companions, the teacher and children attended the funeral in a body.

Flowers were sent by mother, dad, sister and brothers, Bea and Royal, Mr. and Mrs. W. C. Hoskins, Mr. and Mrs. J. A. Raggles, Mr. and Mrs. Fred Latier, Calgary, Mr. and Mrs. Wm. Sanderson and family, Miss Johnson, Bert and Carrie, Champion Elk Lodge, Mr. and Mrs. Helmar Anderson, John, June and Charlie, Mr. and Mrs. Robt. Tyler, Mr. and Mrs. Sadler, and Mr. and Mrs. George Rhodes and family.

## Ladies' Aid Birthday Party

Extensive preparations have been made for the Birthday Party of the Champion Ladies' Aid, to be held in the Community Hall on Friday night. Everyone invited and will be welcomed.

### Card of Thanks

Mr. and Mrs. David W. Scott wish to thank the many friends who came to their assistance in their recent bereavement and also for the beautiful tribute of flowers.

## Ladies' Aid Anniversary Service Sunday, May 19

The twenty-second anniversary and the work of the Ladies' Aid in general, will be honored in the church service on Sunday evening at 7.30. Mrs. E. Latiff as convener, is arranging a few special features.

Special prices on Dutch and multiplier onion sets at Campbell's.

### The Chronicle's Birthday

With this issue The Chronicle begins its eleventh year of publication. Looking backward it is almost impossible to realize that ten years have passed by since the paper was first published, but the volume and number are inexorable and will not be denied. This period has carried vicissitudes of fortune, but on the whole has been fairly prosperous. Progress has been made in every portion of the district during the decade. The town is also considerably improved the outstanding items being the new school and community hall buildings, which are products of the past year and would be highly creditable in a much larger community. Two new elevators have also helped to make the row imposing. The establishment of a park, the graveling of the main street, the installation of the Calgary Power Co.'s electric system and improvements to the firehall equipment are the outstanding forward steps made in the corporation limits. On the whole the situation is satisfactory and indications point to greater progress being made in the future. Farming interests have gained in solidity and more or less diversification in methods has had a beneficial effect, making the business situation more stable. Surely there is every reason to face the future with the highest confidence that all will be well.

## O. E. S. Members Entertained

A number of members of the Champion O. E. S. visited the Vulcan Chapter on Tuesday evening. The Past Worthy Grand Matron, Mrs. McClenaghan took charge in the absence of the W. G. M., Mrs. Savage of Calgary. The work was beautifully put on and a very interesting and profitable evening was spent. Delicious refreshments were served and the usual speeches were given by the past and present officers.

O. E. S. members from Maple Leaf Chapter, Lethbridge, Champion and Vulcan were entertained by Heather Chapter of Carmangay on Wednesday evening. Mr. Dayman was in the chair and a splendid program was given, including solos by Mrs. Ferris, Lethbridge, Mrs. Holube, Barons, Mrs. Stratton, Lethbridge, and Mrs. Collins, Champion gave recitations. Community singing was also a feature of the evening. Five tables of whist were played the prizes being won by Mrs. Woodhull and Mrs. McClenaghan and Mr. Collins and Mrs. Stratton. Delightful refreshments were served by the committee in charge of this part of the entertainment and the evening was brought to a close by singing the national anthem. Visitors from Champion are enthusiastic in commending the outstanding ability of the Carmangay Chapter as entertainers and all will welcome an opportunity to again visit there.

An intensive sign up campaign from June 1 to July 21, has been arranged by the directors of the Alberta Live Stock Pool in connection with the second series contract. The new contract is for a five year period with a renewal clause at the end of that time and makes provision for share capital at 85 per cent. for bear interest at 6 per cent. for the acquiring of facilities and the carrying on of the business of the pool.

## NOTES AND COMMENT.

The price of wheat is beginning to be a matter of anxiety as a rapidly falling market at this time of year is rather unusual. Statistics would indicate there is too much wheat to be absorbed to permit of the price remaining at previous levels and that some time might elapse before any real appreciation in prices will occur.

The election campaign in Great Britain is rapidly nearing its close with all three parties involved claiming ultimate victory. Outside opinion seems to be that Conservatives, Liberals or Laborites will not have a sufficient majority to carry on and that a deadlock will result.

The present crop prospects could scarcely be brighter. The crop has been sown, and in many cases is above ground, in splendid shape. While continued cool weather has resulted in slow top growth the grain is rooted more deeply than would have been the case had warmer weather prevailed. Ordinary conditions for the balance of the season would almost certainly result in a satisfactory yield.

This week's precipitation in the form of rain and snow put any fears of inadequate moisture for some weeks completely in the background. The fact that the bulk of the wheat was sown at the time was also a matter of congratulation. While growth has been more than ordinarily slow so far, owing to very cool nights, a few days of warm weather would result in an amazing growth as everything, but the temperature has been as satisfactory as possible. General optimism with regard to crop prospects prevails everywhere.

## NEWS NOTES

Establishing a new high mark in the history of the province, oil production delivered to the refineries from wells in Turner Valley field during the month of April reached a total of 60,207 barrels. This production shows an increase of 12,500 barrels over that of the preceding month, the gain being largely contributed by an increased flow from Home No. 1, Royalty No. 8, Dalhousie No. 1 and Okalta No. 1 wells.

The Royal Saskatchewan Grain Inquiry Commission which has been holding sessions in that province and at the Pacific coast will sit at a number of points in Alberta during the next month. Evidence will be taken by the commission at Edmonton, May 20 to 24; Camrose, May 27-28; Stettler, May 29-30; Calgary, June 3 to 7; Claresholm, June 10-11; Lethbridge, June 12-13 and Medicine Hat, June 14.

Construction will be started shortly on a number of exten-

sions to Canadian Pacific lines in Alberta according to an announcement made last week by D. C. Coleman, vice-president of Western lines. The Lacombe and Nanton lines will be extended from the present terminus at Breton a distance of twenty miles to Thorshy from where it will eventually be continued to Leduc. Twenty-five miles of grade will be constructed from Arrowwood to Blackie by the Tomlinson Construction Company of Winnipeg, while contracts for the 25 mile grade, northeast from Acme and 41 miles of the Coronation Townstoun line have been awarded to F. Manix of Calgary. Construction of the 25 mile line from Willington to Vegreville, on which work was started last fall, is progressing steadily.

They have a new brand of liquor south of the line and it is known as "North West Mounted" because it always gets its man.—Legion Rally.

## Local Option Vote Results in Tie

The result of the local option vote at Travers, a tie of 34 votes for both dries and wets, with the returning officer casting his vote for the wets, leaving the final count 35 1/2 in favor of the latter, is questioned by J. D. Hunt of Edmonton, who considers the returning officer had no casting vote in this instance. Just how the matter will be settled is a matter of conjecture, as Mr. Hunt is of the opinion that the result was a victory for the dry voters, as the wet vote should have exceeded the dry vote in order to carry.

## Garnet Wheat Poor for Milling

A test of the milling and baking qualities of Garnet wheat on what is probably the largest scale attempted anywhere up to the present time, has just been completed at the Kewatin mill of the Lake of the Woods Milling Co., Ltd. The following summary, prepared by J. M. Pearson, chief chemist for the company, makes interesting reading in view of the fact that the Canadian government shipped samples of this variety of wheat to British and European millers and asked them to submit their findings to the department of trade and commerce, Ottawa.

"A summary of our test on Marquis and Garnet may be made as follows: Color—Decidedly lower from Garnet.

Volume of Loaf—Slightly poorer from Garnet. Gluten—Smaller from Garnet and poorer in quality. Absorption and Bread Yield—No decided difference.

Champion Lodge A. F. & A. M. G. R. A.

Meets second Thursday in each month. Visiting brethren welcome. G. L. DEPUY, CHAS. MCLEAN, W. M.

Champion, Alberta

"The result of this test further confirms our conviction that we cannot recommend Garnet wheat for our mills if high quality of flour is to be a first consideration.

"During the past season we have passed by our mills all cars containing Garnet wheat.

"We appreciate the position of the farmer in northern districts and realize that Garnet wheat to him may mean the difference between success and failure. On the other hand, we feel that the extensive growing of Garnet wheat in central and southern districts of the western provinces would result in a general lowering in baking quality of western Canada's wheat crop."

"Our tests with 'Reward' wheat have given very fine results. This wheat appears to maintain a wonderful uniformity in excellent baking quality. It is consistently from one to two per cent. higher in protein than Marquis and equal to Marquis in all the best baking points. We sincerely hope to see Reward wheat sufficiently successful from an agronomic standpoint to enable it to replace all other varieties in the near future."

## Busy Jimmie!

About fifty apple trees have been planted on the Hood farm east of town, besides a number of fruit bushes. Jimmie Hamilton has rented the half section across the road.—Chamney Sun.

## High-Priced Tools

Bits for diamond drills used to drill into the limestone of Turner Valley cost from \$8.00 to \$12.00 each.

## Stop That Leak!

LEAKS like this you can quickly stop—but the leaks you can't see, such as the losses from a separator or from hand skimming, are the ones that hurt.

Ask us to bring out a new De Laval Separator and run your skim-milk through it. You may be surprised to see how much cream the new De Laval recovers. Have this cream weighed and tested and you can tell exactly what a new De Laval will save. Thousands have tried this plan and have found they were losing from 925 to 8800 a year.

The new De Laval is the best cream separator ever made. It has the wonderful "Boiling" bowl, the greatest separator improvement in 25 years. It is guaranteed to skim cleaner, it also runs and handles easier and lasts longer.

For 48 years De Laval Separators have led the world in efficiency, popularity and use—and this new De Laval is the best of all.

**Liberal trade allowances made on old separators.**

## DeLaval Engines Are Also Leaders

DeLaval 1 1/2 H.P. Engine is simple, easy to adjust, and is equipped with high tension magneto, which assures easy starting.

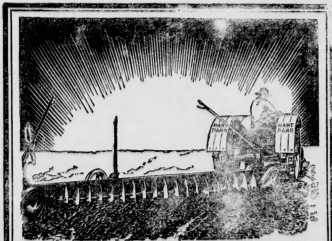

DeLaval Upright Engine is fully enclosed, throttle governed and develops from 1 1/2 to 2 1/2 horse power. You should inspect the DeLaval Upright to fully appreciate its value.

AND

**DeLaval Service is Constant and PROMPT.**

## W. C. Hoskins

EVERYTHING IN HARDWARE

## Pull Your Discs with Three-Fuel Power

Built for tractor power, the one-way-disc pulled by a three-fuel Hart-Parr cuts to full width at any depth. You need not just skim your land, for Hart-Parr power enables you to set the plow down where it belongs and keep it there. Two and even three one-way-disc plows are common behind the larger Hart-Pars. They pay their way. Hart-Parr is the one tractor that develops tremendous power from gasoline, kerosene or distillate. We are now showing the improved 1929 line equipped with three forward speeds to speed up hauling and field work. Hart-Pars are built for small, medium or large farms. Come in and see them.

## The Wheat Price Situation

(From the Royal Bank of Canada Monthly Letter).

As regards total world wheat production in 1928, fairly comprehensive figures are now at hand. Exclusive of China and Russia, the 1928 crop has been estimated at 3,780 million bushels compared with 3,005 million bushels in 1927. The Canadian estimate was recently revised upward by nearly 35,000,000 bushels, making a total of 333,072,000 bushels as compared with 419,065,000 bushels in 1927. Both the Canadians and the world crop figures constitute new high records of production. The United States, Argentine, and Australian crops for 1928 were among the best ever harvested, while the Danube Countries had the largest crop since the War. High average yields also accompanied these increases in production. The average yield per acre for all wheat in Canada in 1928 was 22.1 bushels; in the United States, the yield has been reported at over 15 bushels per acre.

As a result of this large production and yield, world export surpluses at the end of 1928 were unprecedentedly

high. Prices during the summer consequently ranged lower in the principal wheat markets than at any time since the 1923-24 year, and by last December, had only partially recovered from their drop. After the turn of this year, however, cash wheat prices showed much improvement. By the end of February, they stood at the highest level since July, but since then have averaged somewhat lower.

Among the causes which have been responsible for the upward tendency since the autumn, certain factors stand out prominently. Of these, probably the most important has been the rapid consumption of the wheat surpluses by both European and Ys-European countries. Net shipments of wheat and flour from the principal exporting countries from July 1 to the end of March amounted to 614 million bushels as compared with 520 million for the corresponding period of last year. Evidence of these heavy shipments may be seen in the reduced stocks of Canadian grain in North America at the end of March. 1928 bushels then remained at country and terminal elevators as compared with 149,650,000 bushels a year ago; the increase was practically counterbalanced by the smaller farm holdings

this year as compared with 1928. At present, total stocks of Canadian grain are estimated to be approximately 15 million bushels above the previous year's figure.

So many uncertain factors enter into the case, however, that any accurate forecast as to the trend of wheat prices is practically impossible. The shipment of South American grain, the movement of stocks in North America and weather conditions surrounding spring seeding, will all have an important influence on the course of prices. But in general, it may be said that the world wheat situation is relatively satisfactory. The second crop of 1928 is being absorbed and prices, though low, give promise of responding to an increasing demand. The Food Research Institute at Leland Stanford University, California, in a recent issue of its "Wheat Studies," concludes that: "The international statistical position, therefore, is easy. But trend of seed requirements, population, and per capita consumption are upward, and low prices will encourage heavy utilization. Disappearance, international trade, and outward carryovers will probably all rise to new high levels. Total net exports may reach or exceed 900 million bushels, but United States exports bid fair to be small in proportion to the size of our crop."

### Many Fish Caught in North

Fishermen, too, are continuing to help in rolling back Canada's economic map to the northward. In a report to the Fisheries Branch of the Department of Marine and Fisheries, S. Travers, Fishery Overseer for territory centred around Lac la Biche, far up in Northern Alberta, says that one of the Western fish communities has definitely decided to extend its operations next winter to new lakes northeast of Peter Pond Lake, which is in Overseer Travers' sub-district though situated in Saskatchewan. Fishing is already carried on to some extent in waters more northerly than Peter Pond Lake, but the plans reported by Overseer Travers are another indication of the gradual expansion of the fishery in the Prairie Provinces. The fish taken in the waters of Northern Saskatchewan and Northern Alberta include whitefish, pickerel, pike, brook, tullibee, greyling, perch, sucker, and ling.

"Your ticket," said the conductor to the slightly illuminated traveller, "is for Medicine Hat and we are travelling to Banff." "Good Lord," said the passenger, "does the engineer know?" — Legion Italy.

The Canadian Legion is seeking that old-age pensions be paid to returned men after the age of sixty.

### Keep the Home Fires Burning

#### CHAPTER XIX—Continued.

Connie had rehearsed this moment a thousand times. She stood quietly on the steps for a moment, then slipped gracefully to the platform. Connie herself could not have imagined how changed she was. From coffee to dainty French heels she was dressed as if fresh from the hands of an expert Parisian couturier. So dazzling was she that she positively took Donald's breath away. It seemed to him that she had grown like a magic rose, all at once from a tiny bud to a full blossom. No fault could be found with the perfect oval face, with the delicate white rose skin, from which every trace of tan had gone. The big lashes that fringed her big blue eyes had turned a shade darker than the curling waves of her abundant golden hair.

And, whose small form had been hidden in the rear, moved haughtily forward, fumbling the belt held in his hand. "Ellie, Connie," he murmured, his lips parting in a wide smile of welcome.

Instantly Connie forgot her assumed dignity and became her warm, impulsive little self. With a gasping cry she flung her arms about Andy's neck and kissed him.

"Strike me pink!" breathed Andy, as his hand stole up to touch the spot where Connie's lips had brushed his cheek.

Connie turned to face the lake. "Oh, Dad!" she cried in ecstasy. "Isn't it good to be back here again?" She stretched her arms toward the ice-clad peaks. A gentle breeze swept down the wooded slope to fan her face as though in welcome. The blood surged beneath her smooth white skin and went singing through every vein. "Ah!" she sighed happily, as she inhaled a deep breath of air laden with the odor of pine from the hills she loved. Donald, gazing at her hungrily, saw tears shimmering under her long lashes.

From the far end of the train a tall, grey-haired man, assisted by a slender sweet-faced woman to the ground, and then walked toward the station. As they stepped to the platform the woman's eyes rested on Donald, who stood with his back to her. Instantly she became rooted to the spot, eyes wide, one hand fluttering toward her heart. With the supreme, wondrous mother-love shining in her eyes, she held out her arms.

"Donald!" she cried passionately. "Donald!"

Donald whirled at the sound of the loved voice calling his name. His heart throbbed wildly, his throat felt constricted and his face pulsed under stress of strong emotion.

### Simple Precautions Against FLU Sore Throat

#### —The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—and the danger is increased. A safe plan is to treat the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose mentholated results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease-breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, and Colds, etc., and can be relied upon to give very satisfactory results.

#### "Mother!"

His arms were around his mother, yearning, tender, hungry, after those long months of separation. Her face upturned to him was white and drawn, but her eyes shone with unalloyed joy. He felt his hand gripped in his father's strong fingers, and saw his eyes shining with tears. John McLean patted his boy's dark head with a shaking hand.

"Donnie! My boy, Donnie!"

For some time Donald was oblivious to all save the great happiness of meeting his parents. His mother's embrace almost unmanned him, and it was with difficulty that he kept back the sob that tightened his throat.

He let his parents to the other end of the platform and introduced them to his friends.

Robert Remmie's comments were simply gasps and a reiterated, "Well, Well!"

Andy offered his usual contribution, "Strike me pink!" he said.

Connie's eyes were filled with soft eagerness as she greeted Donald's mother. The glow in Donald's face as he spoke to Connie was poignantly significant of his deep love for her. But Connie, to his consternation and dismay, met his ardent glances with a look of cold indifference.

Like Connie's arrival Janet's features held a look of disquietude, but she acknowledged the introduction to Donald's parents with a radiant smile.

A moment later, Connie, with skirts held high, was running down the railroad track.

"What after her, huh?" scolded Wainwright in answer to Donald's question.

"Will you have dinner with us?"

"Yes, thank you," responded Wainwright. "We will sleep in the car to-night," he continued, "but Connie insists that we must return to the old home as soon as possible. She has been busy drawing plans for a chalet she intends building on the hill."

Connie returned with the old tramp, the latter leading Pegus. At dinner Connie showed no signs of her former shyness. She was self-possessed, calm and perfectly poised as a goddess. A glad light filled her eyes as Gilla and his crew of "redshirts" filed into the big dining-room. She sprang to her feet and greeted them joyfully, shaking hands with each and every one.

"I'm so glad to see you, Jack," she smiled.

The big logger took her tiny hand in his. "We're sure glad to have you with us again, Connie."

"May I bring Andy in to dine with us, Mr. McLean?" she asked as she came back to the table.

Donald nodded assent. She ran gleefully to the kitchen, and a moment later the loggers grinned broadly as she came through the door leading the protesting cook by the arm.

"Now," she said as Andy sat down. "We're all here." She looked about her and clasped her hands rapturously.

by. "It seems as though I had been gone for years. And oh, it is so nice to be home again!" She sank to a chair between Andy and the trapper. "Do you remember, Andy, when you were dressed as a baller and danced with John at your party?" She threw back her golden head and her silvery laughter filled the room.

Janet was unhappy from the moment of Connie's arrival. She had caught the look of adoration in Donald's eyes as Connie stepped to the station platform. Standing there she had quite definitely abandoned any hope of winning him. And Janet had been so sure that once she had held a place in his heart. A great depression, a great weariness of spirit, settled upon her.

That evening, as Donald walked with his parents by the lake-shore, he turned to his father. "Dad," he said abruptly, "do you think I have made good?" Will you forgive me for—"

John McLean's eyes grew suddenly soft. "Donald," he said, "Mr. Remmie has told us all about you. And no man could speak more brightly of another." He drew a newspaper from his pocket. "Haven't you seen this?"

It was Vancouver's morning paper, with a full-page devoted to the visit of the Eastern lumbermen. There were several photographs of the Summit Mill and one of Donald. The paper spoke of him as the able young engineer whose modern ideas and energy had given to British Columbia a logging plant and mill that were a credit to the Province.

Donald saw the proud light in his father's eyes, and his heart was filled with a great peace.

The next day Donald and material arrived for the construction of Wainwright's new home. That afternoon Connie, clad in fashionable riding habit, came to the mill office with her foreman to place an order for lumber. Pegus in silver-mounted bridle and English saddle was proudly trotting. With neck arched and curvetted and rocked while Connie sat on his back with that complete lack of self-consciousness that is the heritage of a born horsewoman. Before leaving she rode up the hill among the tolling towers, her iron-shod hoofs bringing down answering grins from the "redshirts," who doffed their hats and shouted a joyous greeting.

All day long, horse-hornes and men struggled up the hill, staggering under the weight of building material, but although Donald strained his eyes for a glimpse of the golden-haired rider, he saw her no more that day.

(To Be Continued.)

#### Little Helps For This Week

"Obey My voice, and I will be your God, and ye shall be My people."—Jeremiah vi. 22.

"Three knots bear up, Downland; Three knots bear up, Downland; These twain are strong, but stronger yet the third. Obsequence: It is the great tap-root of the will. Knifed the rock of Duty, is not stirred."

"Though heaven-loosed tempests spend their utmost skill."

—James Russell Lowell.

Tendency of will lies at the root of all courage; but courage can only rise into true manliness when the will is surrendered; and the more absolute the surrender of the will, the more perfect will be the temper of our courage and the strength of our manliness. —Strong Rion of Gales

cries the poet, "Immortal Love, our wills are ours to make them Thine," and that strong Son of God, to whom this cry has gone up for our aid, and in all days, has left us the secret of His strength in the words, "I am come to do the will of my Father and your Father."—Thomas Hughes

Minard's Liniment relieves pain.

W. N. U. 1785

#### Heating By Radio

French Scientist Says Wireless Waves Can Be Used To Warm Homes

Wireless beams from the Eiffel Tower may be employed to furnish heat for the residents of Paris, if tentative plans drawn by French engineers are put into effect.

Heating plants deriving their power from radio waves are operating successfully in Germany, according to Jacques Hiler, whose reports form the basis of these plans. Hiler said that while the question of wireless heating houses is still in the experimental stage, the feasibility of it has been definitely established.

Explaining how the wireless heating plant would operate, Hiler said: "In the laboratory two posts were set up about 30 feet apart. The sending post sent out from 400 to 500 volt current waves of two to three meters in length. All that is to be done is to interpose on the receiving post circuit a filament in vacuum and it is raised to an incandescent state and gives out quite appreciable heat."

"There is therefore no theoretical difficulty in installing in a house a series of receiving posts which would in reality be just so many electric radiators. This system could be adapted ultimately to an entire district or to a whole city, which would derive its heat from one central generating station."

#### Rents Home By Wireless

Member Of Byrd's Party Closes Deal In New York

William Vander Veer, one of the motion picture operators with Commander Byrd's South Pole expedition, closed a lease for a Westchester apartment by radio from a point somewhere near the southern extremity of the world. The lease covers a suite in the Dorset, Bronxville, N.Y., which had been selected by Mrs. Vander Veer.

Several days ago she sent by radio a description of the apartment, the rent asked and other particulars to her husband in the great expanse of ice near the South Pole. Officers of the ice next that it would reach her. She was surprised, therefore, to receive a message at her home, 431 Homestead Avenue, Mount Vernon, from her husband to close the deal.

Neuralgia succumbs to Minard's Liniment.

California is likely to become the first horseless state in the United States, for horses are rarely used there now except in isolated regions.

In the days of our Grandmothers and Great Grandmothers this name **McClary** meant a great deal just as it does today. Buy goods bearing the **McClary** name with complete confidence

#### GENERAL STEEL WARES

25 Brockton Avenue, Canada  
P.O. Box 100, Brockton, Ontario, Canada  
P.O. Box 100, Brockton, Ontario, Canada

A railway station in Oodnadatta, Australia, has only one train in two weeks.

#### NO MEDICINE LIKE

#### BABY'S OWN TABLETS

Once a Mother Has Used Them She Will Use Nothing Else

To once use Baby's Own Tablets is to use them continually—that is as long as there are young children in the home. That is the testimony given by mothers from all parts of Canada. They all say that they know of nothing to equal the Tablets, that they find them safe and efficient and at the same time pleasant to take.

Mrs. John Hollinworth, Malden, Ont., writes: "I have three children, the eldest fourteen and the youngest nine months old. I have always used Baby's Own Tablets for them and have found no other medicine to give them as much relief for the many ailments of childhood."

Baby's Own Tablets are a mild but thorough laxative which regulates the bowels and sweetens the stomach. They ease colds, constipation, indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### A Foremost Fur Producer

Canada is one of the foremost fur producers of the world. Raw furs are the chief commercial product of the wild life of the northern half of the continent and as such represent the only economic return from large areas in the Dominion.

Great works are performed not by strength, but by perseverance.

#### Largest Thermometer Seventy Feet Long

Has Been Erected In Museum Tower At Munich

The largest thermometer in the world was recently erected in the tower of the Deutsche Museum at Munich. It is 22 metres—about 70 ft.—long, and shows not merely the temperature of the moment, but the maximum and minimum of the previous day. It is regulated by another instrument of normal size, connected by electrical apparatus. Not until a thermometer becomes more than about 60 ft. long do you realize how exciting it can be. Blow hot, blow cold, the temperature of the breeze changes from minute to minute. The mercury ebbs and flows like a ripple on the sea, and the spectator finds difficulty in tearing himself away from contemplation of the restlessness of the atmosphere.

Egyptian papyrus 2,000 years old are in better condition today than some of the paper which went under the printing press during the World War.

#### HEADACHE RELIEVED

**CARTER'S** QUICKLY This Pure Vegetable Oil quickly corrects the digestive disturbances, removes the intestinal parasites, and the headache quickly disappears. Your whole system enjoys a tonic effect, constipation vanishes, and you feel a renewed vigor. Avoid bromides and dose. They are depressing and harmful. All Druggists sell and the red pack.

**CARTER'S** QUICKLY

### The invisible difference

Many motor oils look alike, but there is a vast difference in the way they perform. Unfortunately this difference is difficult to detect.

The invisible difference which makes one motor oil better than another must be inherent in the crude from which it is made.

There you have the reason why Marvelube gives better engine lubrication than oils refined from ordinary crudes. Imperial Oil searched the world over for a better crude—and in South America they found it. From it they made Marvelube—a pure, carbon-free, full-bodied oil that resists the extreme heats and pressures of modern engine operation.

Aircraft operators prefer Marvelube because better lubrication means greater safety and longer intervals between overhauls. Motorists prefer Marvelube because it is the ideal oil for modern motors. It ensures greater power, greater flexibility and greater economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car. Consult the Marvelube Chart at Imperial Oil service stations and dealers.

## REPARATIONS PLAN UNFAIR TO THE DOMINIONS

Paris.—It was confirmed that the plan for revision of reparations payments by Germany, proposed by Owen D. Young, of the United States, at the reparations conference, would have Great Britain nothing for the Dominions or for arrears of interest on debt. It would award that country just enough from Germany to pay the U.S. from now on.

The British experts here refute the contention that this is all that is demanded in the Balfour note. They point out the note excludes reparations due the Dominions from its terms.

The absence of direct representation for the Dominions at the conference is considered by the British delegation as all the greater reason for not yielding on the question of the Dominions share of German reparations. The delegation is practically certain to reject that phase of the Young proposal which would reduce the German payments to the Dominions to zero.

The proposals brought forward by the U.S. delegate were by way of a compromise after the conference had become deadlocked on the amount Germany should pay. The Germans refused to meet the Allied demands and Mr. Young advanced a plan involving some reduction.

## Eclipse Of Sun In South Seas

Thousands In Manila See Phenomenon Through Smoked Glasses

Manila.—The eclipse of the sun cast a shadowy atmosphere over the city and the South Seas.

Manila witnessed the phenomenon with great interest, as seen here, 50 per cent. of the face of the sun was obscured as the moon's bulk came between the solar rays and the earth. The observation cast a spell over the city but did not prevent the sun from casting shadow.

If the natives feared the phenomenon there was no sign of it here. Thousands of all ages viewed the eclipse through smoked glasses or other improvised instruments.

Word was, however, that from Iloilo, south of here, where five scientific expeditions located their instruments to view the phenomenon of a total eclipse.

## Disappointed In Arms Parley

Stresemann Discusses Failure To Reach Definite Decision

Berlin.—Gustave Stresemann, foreign minister of Germany, discussed disarmament and the Paris reparations negotiations in a speech at the annual banquet of the German League of Nations Association. Although he specifically disclaimed any desire to give a pessimistic touch to those situations, yet his remarks, especially regarding disarmament, showed disappointment and even alarm at the failure of the Geneva conference to reach concrete and definite decisions.

## Oppose Bill For Back Pay

Ottawa.—Over Fifty Manitoba Liberal members have served notice on the government they will oppose Hon. Peter Venita's bill to pay \$150,000 to the postal workers who went on strike in 1919 and who were taken back into the service. The dissenting Liberals are: Messrs. Glen, Irvine, Steedman, Brown and Milne. The bill will have to be radically re-drafted or what is quite probable, dropped entirely.

## Ice Breaks Up On Yukon

Dawson.—The ice in the Yukon river in front of Dawson hotel moved on May 7, heralding the advent of spring and summer. First prize in the guessing contest on the movement of the ice was divided between Thos. Leach, of Dawson, and Kennedy and Grace Stewart, of Anchorage, Alaska. The approximate amount of the prize was \$7,200.

## Fails In Altitude Test

Montreal.—After reaching a height of 17,000 feet, Captain M. E. Jones, chief pilot of the Canadian-led Albatross at Cartierville, was forced to give up his attempt to break the world's altitude record when Jones made his attempt without the aid of oxygen and in an open cockpit plane.

## Adopt Grade Crossing Bill

Ottawa.—Third reading was given in the Senate of the bill amending the Railway Act which provides for the expenditure of \$200,000 a year to eliminate grade crossings.

W. N. O. 1785

## Riots Cause Controversy

Part Played By Police In Berlin Rioting Is Criticized

Berlin, Germany.—Rioting continues in the Berlin press and among the public as to the part played by the police in suppressing the Communist riots which broke out on May day. Postmortem examinations of twenty-four victims of the riot are said to have revealed that 17 had been killed by police bullets.

The official inquiry has been unable to establish that a single shot had been fired by a civilian against the police. Only one policeman of the 40,000 injured had received a bullet wound and that wound he had accidentally inflicted upon himself.

One hundred and fifty shopkeepers of the Wedding district, where rioting was said to have been very severe, declared that the streets were quite safe from Communist activities and that a simple police patrol would have sufficed.

Meanwhile, 48 persons of 171 arrested have been sentenced to short terms of imprisonment for breaking the peace. The rest were released for want of evidence.

## Should Not Be Disfranchised

Committee Thinks Persons Receiving Charitable Aid Entitled To Vote

Ottawa.—A parliamentary committee on privileges and elections was decided to recommend a change in the Elections Act so that persons receiving charitable aid should be allowed to vote. The act as it stands prevents persons receiving such assistance either by direct gifts or by living in a charitable institution, from voting.

The committee felt that with so many varied forms of assistance now being extended to persons in unfortunate circumstances it would be too far reaching to disfranchising those who are dependent on the state. It would be almost impossible to differentiate.

The committee refused to agree to the suggestion that the clause preventing persons from voting be eliminated. The general opinion seemed to be that the judges did not want the law changed, they did not wish to be placed in the position of either supporting or opposing the government by casting their ballots.

J. L. Macdonald, Conservative, Vancouver-B.C., argued it was absurd to disfranchise the judges. He considered it was an insult to the judges.

## Cannot Attend Function

Alberta Women Unable To Accept Invitation From King, Due To Illness

Edmonton.—None of the five Alberta women who were expected to visit England on June 17, when the King and Queen would appear at the decision of the Supreme Court of Canada, which decision declared that they are not "persons" within the meaning of their national charter, the British North America Act, will be able to attend a great public function to be held in their honor in London.

The invitation, which also carried with it an offer of assistance, has been tendered to the women living in Great Britain, including members of the imperial parliamentary and other notables who have achieved distinction in politics, business, the professions, literature, education and social endeavor.

The Alberta applicants are Mrs. Henrietta Edwards, Mrs. Nellie McCling, Mrs. Louise McKenney, Mrs. Irene Parbury, and Magistrate Emily Murphy.

## Frown On Practice

Toronto.—A warning to patent medicine companies against the practice of having sample pills and patent medicines thrown at the doors of householders for advertising purposes was issued today by Hon. W. H. Price, attorney-general. He ordered an inquiry into the death of Audrey Gimmer, Kitchener girl, who died after eating pills that had been left at her door.

## Optim Seizure At Coast

Vancouver.—A seizure of opium valued at more than \$7,000 was made on the R.M.S. Empress of France by officers of the customs and preventive service, according to a report from that office. The seizure consisted of 83 lines and was hidden near the ship's funnel. No arrests were made.

## Many Russians Drown

Southern, Russia.—Thirty persons were drowned when a wooden dam collapsed while it was crowded with spectators watching the annual festival of a spectacular rise of the river Dnieper. The river was many feet above normal, causing a serious flood.

## Marooned Trains Released

Were Held Up During Ten-Day Blizzard In Northern Alberta

Winnipeg.—Freed from northern snows by a let up in low temperatures, two Canadian National Railway trains were able to proceed on their way to Churchill, the prairie outlet on Hudson Bay. Both trains had been held up during a ten-day blizzard that had snarled down from the northland almost to the Pas.

After days of almost unrelenting effort the snow plows succeeded in battling through the trains, one of which were 160 men en route to Churchill for the protection of railroads and canals.

## AMENDMENTS TO ELECTION ACT TO BE FORTHCOMING

Ottawa.—Candidates should be allowed to hire automobiles or other conveyances to carry voters to the polls on election day, it was decided by the special committee of the House of Commons on the Dominion Elections Act. Sec. 11, which makes the practice an offence to be deemed. There are at present one-third too many polling divisions throughout the country. Colonel O. M. Biggar, former chief electoral officer states: "Approximately \$150,000 would be saved in each election by a revision of subdivision boundaries. Sec. 28 is to be amended to make it more difficult."

Sec. 27 is to be amended so that an election officer guilty of a willful act or omission shall be subject to a fine of from \$200 to \$500, and on half the fine is to go to the informer. A new section, "A," was added providing that election officers' documents may be falsified to post or wooden structures despite any municipal bylaw.

Sec. 4 was amended so that although hand bills or otherwise must bear the name of the printer, the candidate cannot be unseated if they do it. It was explained that the section is to prevent anonymous material being circulated.

Sec. 9 was amended so that although hand bills or otherwise must bear the name of the printer, the candidate cannot be unseated if they do it. It was explained that the section is to prevent anonymous material being circulated.

## Alaskan Survey Planned

Washington, D.C.—Inventory of the vast resources in timber and hydro-electric power that lie hidden beneath inaccessible mountains ranges in southeastern Alaska is to be taken this summer by navy aviators. Flying photographers with multiple lenses cameras will unfold the secrets of hidden lakes and inaccessible forests like a magic carpet beneath them.

## New York Doctor Loses Railroad

New York, N.Y.—Somewhere in New York, \$25,000 worth of radium is smoldering slowly through its tin containers and threatening harm to anyone who touches it. It was lost by Dr. J. J. Elser, a skin specialist, who believes he fell in a taxi-car.

## Plans Flight To Sweden

Chicago.—Another flight to Sweden from the Middle West is being planned by Bert Hassell, Rockford, Ill., aviator.

Hassell, who piloted the "Greater Rockford" on its projected Rockford-Sweden flight last summer and was forced down in the snow fields of Greenland, declared his next flight would be over a route with nine refueling points.

## A BROWN STUDY

Brown is a more restful and tasteful color, the car designers and interior decorators of the Canadian Pacific Railway have decided, so this will be the predominant note in the sumptuous new sleepers just built by the company's Angus shops at Montreal especially for service on the Trans-Canada Limited. The carpets and curtains will be a rich brown, and the wood finish a lustrous walnut. Permanent headboards, too, will give added privacy, dividing each section from its neighbour cubicle fashion. The feature of the rear end equipment on the Trans-Canada will be a Solarium-lounge car, with green-tiled bath-rooms, vinyl-glazed sun rooms and smoking rooms for women as for men.

## SPOKESMAN FOR GERMANY

Dr. Hjalmar Schacht, president of the Reichsbank, and spokesman of the reparations conference in Paris.

Canada.—Possibility that some United States soft wheat is brought to this port and mixed with Canadian grain, is interesting the Saskatchewan Royal Grain Commission just now. Evidence has been produced that at least one such vessel from Seattle was in port, this spring, with a part cargo of soft wheat, and loaded the balance of the ship with Canadian grain. The port warden was before the commission, to explain just what safeguards there are to prevent anything of this sort. His evidence was clear on the point that in such an event, no government certificate would be issued to cover such a mixed cargo, but that there was nothing to prevent mixing after the Canadian grain had been inspected into the vessel. In such an event, the Canadian certificate could not be construed as certifying to such a mixture, though overseas buyers might be deceived as to just what kind of cargo they were buying. It was pointed out that ships en route to the Orient from Seattle, frequently come in here for grain, and many of them have soft American grain aboard. There is a mixture made in Oriental ports of 25 per cent. Canadian hard wheat, and the balance soft, from the United States, but this is not covered by a Canadian certificate.

## Must Watch His Colors

Party Workers In England Must Be Wide Awake

London.—The party worker who slips lightly from constituency to constituency during the general election campaign will have to keep a sharp eye for his colors. For by a curious practice in British election law no party has national colors accepted in every constituency. Sometimes the color in one constituency is completely reversed in another. Occasionally it is a bit awkward for the party enthusiast who wanders far afield.

## Suspect Grain Mixing

Think United States Soft Wheat Is Mixed With Hard Wheat Of Canada

Canada.—Possibility that some United States soft wheat is brought to this port and mixed with Canadian grain, is interesting the Saskatchewan Royal Grain Commission just now. Evidence has been produced that at least one such vessel from Seattle was in port, this spring, with a part cargo of soft wheat, and loaded the balance of the ship with Canadian grain. The port warden was before the commission, to explain just what safeguards there are to prevent anything of this sort. His evidence was clear on the point that in such an event, no government certificate would be issued to cover such a mixed cargo, but that there was nothing to prevent mixing after the Canadian grain had been inspected into the vessel. In such an event, the Canadian certificate could not be construed as certifying to such a mixture, though overseas buyers might be deceived as to just what kind of cargo they were buying. It was pointed out that ships en route to the Orient from Seattle, frequently come in here for grain, and many of them have soft American grain aboard. There is a mixture made in Oriental ports of 25 per cent. Canadian hard wheat, and the balance soft, from the United States, but this is not covered by a Canadian certificate.

## SAW POOL WILL NOT SELL GRAIN AT A SACRIFICE

Winnipeg.—If western wheat pools are bled for the grain blockade at Port Colborne and Montreal, they are not concerned as the situation in which they are found. But they refuse to be made the "goats," according to the officials' statements in answer to Montreal allegations.

"We must mitigate the situation if we wanted to sell our grain at a sacrifice," commented a senior official, "but we refuse to make our farmers pay for a situation that is not our fault. Don't misunderstand. We are selling a certain amount—we are not refusing sales."

"The word surplus is not of our making. There is an enormous amount of grain in the world, and the buying is not exactly brisk. If we wanted to take sacrifice prices we could move the stuff, but we don't intend to penalize our farmers by doing it."

## Plans Flight To Sweden

Chicago.—Another flight to Sweden from the Middle West is being planned by Bert Hassell, Rockford, Ill., aviator.

Hassell, who piloted the "Greater Rockford" on its projected Rockford-Sweden flight last summer and was forced down in the snow fields of Greenland, declared his next flight would be over a route with nine refueling points.

Hassell predicted that within five years aeroplanes with "pay loads" will fly regularly between Copenhagen and Chicago. The route from the Middle West northward through Canada to Iceland and Greenland, thence to the European mainland, is the safest possible to Europe, he said, with its longest stretch over water being only six hundred miles.

## Wheat Nipped By Frost

Grain In Brandon District Will Grow Again Say Farmers

Brandon, Man.—Wheat shoots on hundreds of acres in the Brandon district have been nipped off by continued frosts. The wheat is now in some cases reached a height of one and one-half inches has been levelled. Farmers state that the grain will grow again this year. The weather service has issued a statement to the effect that the new growth will be a benefit, strengthening the roots.

## Investigating Malady Among Horses

Saskatoon, Sask.—Dr. Seymour Halpern, professor of animal pathology at the University of Saskatchewan, and a member of the Dominion research council, has gone to British Columbia at the request of the Dominion government to diagnose an unknown malady which is wrecking havoc among horses of the coast province. He is accompanied by Dr. H. M. Toren, president of the research council.

## Phonograph Records Of Speeches

London.—Phonograph records of speeches of 15 leading politicians, including leaders of the three main parties, are being distributed for use in rural areas in the present campaign. The records will probably prove of great value to the farmers, as they immediately use, an interesting example of personal styles of oratory.

## Must Complete Line

Ottawa.—In a judgment handed down the Board of Railway Commissioners ordered the Canadian National Railway Company to complete the construction of a branch line in connection with the new line of the Globe Coal Company, Ltd., in the Rocky Mountain forest reserve, in Alberta.

## Oratory Finals

Toronto, Ont.—The Dominion oratory finals will be staged here on October 25. It is expected that several provincial champions will strive for the right to be Canada's representative at the international oratory championship in Washington on October 28.

## To Circle the Globe

Plans Being Drawn Up For Graf Zeppelin To Make Flight Around the World

Washington, D.C.—The post office department was advised by U.S. diplomatic officers in Germany that plans are being made for the Graf Zeppelin airship to make a round-the-world trip, starting and ending at Lakehurst, N.J.

A trip from Germany to the United States and back is due to start soon, after which the post office department was advised the airship would return to this country to start circling the globe.

## Heads Victorian Nursing Order

Hon. Geo. P. Graham Re-Elected President Of Board Of Governors

Ottawa.—Right Hon. George P. Graham, M.P., was re-elected president of the Board of Governors of the Victorian Order of Nurses for Canada at the concluding session of the thirtieth annual meeting of the Order here, Hon. W. K. Martin, Vancouver, is one of the four vice-presidents.

## Wheat Nipped By Frost

Grain In Brandon District Will Grow Again Say Farmers

Brandon, Man.—Wheat shoots on hundreds of acres in the Brandon district have been nipped off by continued frosts. The wheat is now in some cases reached a height of one and one-half inches has been levelled. Farmers state that the grain will grow again this year. The weather service has issued a statement to the effect that the new growth will be a benefit, strengthening the roots.

### LOCAL AND GENERAL

Champion Elks Sports and Carnival—July 1 and 2.

G. F. Smith has been ill during the week.

Miss Jessie Archibald is home on a visit from Calgary.

Dahlia and Gladioli bulbs, prize winning stock, at Campbells.

Mrs. Neil McLeod received the news of the death of her sister, Mrs. Ward, of Bowden, and with Mr. McLeod left for that point on Wednesday.

K. R. McLean R.O., of Anderson & McLean, Sight Specialists, 298 8th Ave. West, Calgary, will make his monthly visit to Champion Thursday, May 30th. At the Drug Store.

A dance has been arranged in the Community Hall for Friday evening, May 24th. The best of music will be supplied and all may rely on a splendid evening's enjoyment.

Dr. C. L. Gritman of Moscow Idaho was a visitor in town this week, looking after interests in this vicinity.

## Society Brand Clothes

© Society Brand

## We have never used the word "cheap"

That word carries a meaning that doesn't apply to the merchandise we sell. It seems to suggest that we can give you something for nothing. And we can't.

Take Society Brand Clothes. They cost a bit more than the average. They simply can't be sold for less than forty dollars. And when you buy them you're paying for everything you get.

But here's the point: The things you do get—such as fine fabrics, really expert tailoring, and unequalled smartness of cut—are of the sort that give you more satisfaction than you can measure in money.

That's value—as we understand it. Come see our new showing of Society Brand, and we believe you'll feel the same way!

Prepare NOW to Look Your Best for the Holidays

Buster Keaton is coming next week with the biggest comedy picture of the year, "Spite Marriage."

Extensive improvements are under way on the Ford Garage which will include a modern workshop 20x40 feet.

Remember the Elk's meeting on Tuesday, May 21st. A general turnout is requested as business of importance will be transacted.

L. Church's roadmaking outfit left for Turner Valley on Monday where a contract on the new road to the oil wells has been secured.

Mrs. Wadwo Matlock, who has been in the district for the past month, leaves for Grande Prairie on Tuesday, where Mr. Matlock resided recently.

The meeting of the W. L. on Tuesday was postponed owing to the weather conditions and will be held at Mrs. Ulrich's home on Tuesday, May 21st.

Dr. and Mrs. Freeze left for Montana on Monday on the receipt of news of the death of Mrs. Freeze's father. They returned home on Thursday.

Mrs. J. Castador had the misfortune to have the finger of her right hand crushed in the door of an automobile and is at Nanton for treatment of the injured hand.

A coat of stucco and other improvements, including a chimney, has made I. Granlin's residence decidedly attractive. Alex. Rinaldi was in charge of the work.

Fred Starr and wife spent the week end visiting at F. Caldwell's and I. Fisher's. Charlie Starr, who has been visiting here for a week returned with them to Browning, Mont., where he will take charge of an oil station.

A week's short course for the winners of scholarships at the various fairs in the district will be held at the Claresholm school of Agriculture, July 13 to 20. Some 45 boys and girls are expected to be in attendance.

## Bad Roads Ignored For Alston Dance

The dance at Alston on Wednesday evening under the auspices of the Junior U. F. A. was well patronized in spite of the bad weather and roads. The Len Davis orchestra supplied the music in their usual inimitable style, to the entire satisfaction of everyone. The proceeds were \$95.00. This being the first attempt of the juniors they were very well pleased with the result.

## Will Support Intermediate Team

The baseball meeting held in the Community Hall last Friday evening was poorly attended. Those present decided that all support available

## VILLAGE OF CHAMPION

### Notice to Bicyclists

Owners of bicycles are reminded that riding on sidewalks is contrary to law.

Anyone riding on sidewalks after this notice will be prosecuted.

By order

Council of the Village of Champion.

should be given to an intermediate team, for which there is excellent material in sight, while to put a team in the field which could hold its own in the league would be too expensive for consideration. The forming of a soft ball league was suggested and met with approval.

### Cowling-Galloway

Knox church, Calgary, was the scene of a very pretty wedding on Saturday, May 4th, at 8 o'clock in the evening, when Miss Ellen Galloway, daughter of Mr. and Mrs. Fred Galloway of Champion became the bride of Mr. William Cowling of the bank staff at High River.

Mother's Day was observed on Sunday with the usual respect and reverence and appropriate service was held in the church by Rev. Hunt on the theme of Motherhood. Carnations were much in evidence, also flowering plants.
